

Career

- * The company was established with name of "AGECO" in 1988.
- * In 1988 it was changed to AGECO (Pvt.) Ltd.
- * We have completed 50 HVAC Projects in Government and Semi Government sectors all over the country.
- * We are The Pioneers in Introducing Designing and Manufacturing of "ECONOMIA" Riskless & Energy Saving Central Heating System in Pakistan since 1997 and to adopt same pattern of heating which has been used in Europe and other Countries in the World.
- * We have since installed this system successfully at more than 15,000 different Locations including Defence Offices, Hospitals, Commercial Buildings, Guest Houses, Hotels & Residences all over the country where ambient temp is up to (-)25°C in winter and altitude up to 14000 ft.
- * Now introducing energy saving "COOLING SYSTEM" attachable with existing Central Heating System.

Aim Of Introduction Of "ECONOMIA".

The main idea behind the project is to save our environment from all kinds of pollutions. Every year hundreds of our people die due to the accidents caused by gas heaters. In our system there is no combustion in the rooms so there is no question of any hazardous gas and lives are perfectly safe even if this system is used 24 hours and its 24 hours consumption is equivalent to 6 hours of any present facilities/heater.

ENVIRONMENT FRIENDLY

“ECONOMIA[®]” Central Heating Systems

**First time manufacturing Water Heating Radiators in Pakistan
Operatable on Natural Gas, L.P.G and Kerosene Oil.**

- *Safe*
- *Reliable*
- *Durable*
- *Efficient*
- *Harmless*
- *Economical*
- *Pollution Free*
